As well as I have achievements in Weightlifting sports at different levels of competition.

Experience

Associate Software Engineer

Cogoport • Gurugram, Haryana

07/2022 - Present

I joined Cogoport team in July 2022 as an Associate Software Engineer with an aim to redefine the user interface of Cogoport website by introducing new designs, improving functionality, and increasing the interactivity with customers at Cogoport website.

Web Developer

Web Student • Remote, Haryana

05/2021 - 08/2021

- With a role of Front-end Developer, I was assigned to a team of 6 members, and myself as a team lead, I learned to work within a team as well as lead the team.
- Developed E-commerce websites using Web Storage API, users were allowed to add, update and delete the items from the cart.
- Used different kinds of designs and animations to make the website look more attractive, useful and responsive as well, and enhance the user experience.
- On the last day of my internship I was awarded with **Best-Intern** of the month, and an **Appreciation Certificate** for the whole team also.

React Self Projects

React Developer • Home, Haryana

06/2022 - 06/2022

- A [Music Player React App](#), choose local music files on homepage and then stream on my custom audio player.
- The [Movie DB API App](#), displays popular movies, details page for movies and search results made by user for movie.
- The [Rail API App](#), show live running train status, trains between stations results.

Projects

Several Self made project are there on my github profile built from scratch, some are react projects and others are made with only JavaScript. Here is my [GitHub Profile](#).
